Axiomis, Inc.

SMS Consent for Two-Factor Authentication (2FA) and Network Monitoring

SMS Messaging Program

Axiomis, Inc. uses SMS messaging to provide authorized employees, contractors, and users with security, authentication, network monitoring, and operational notifications.

By providing your mobile phone number and affirmatively consenting below, you may receive SMS messages related to:

- Two-factor authentication (2FA) and one-time security codes for VPN access
- Two-factor authentication for authorized internal applications
- Network monitoring alerts
- Security notifications
- System and operational notifications
- Other authorized security or operational notifications

This SMS program does not send marketing, advertising, or promotional messages.

Message Frequency

Message frequency varies depending on authentication requests, system activity, security events, network conditions, and operational requirements. No minimum or maximum number of messages is guaranteed.

Message and Data Rates

Message and data rates may apply depending on your mobile phone service plan.

Help

Reply HELP for help or assistance.
